REFERENCE LETTER

The company Strojirna Litvínov spol. s r.o. performed for us a complete wind tunnel technology.

Cooperation with Strojirna arranged perfectly. They were open to suggestions and changes. They reacted to the problems resulting from the construction schedule. They were very creative and supported innovative solutions. Staff were very professional in their activities.

The technology offered by the Strojirna is very good. They offer modern technological solutions. After a few months of operation, the tunnel works perfectly. Service operates at a high level.

I would recommend the Strojirna Litvínov spol. s r.o. as an excellent partner in the construction wind tunnel technology.
